Introduction

T & A Associates has started its journey in 2014, as a standalone readymade garment (RMG) entity engaged in the arena of manufacturing and exporting of knit apparels. In the passage of time T & A Associates flourished itself as one of the leading conglomerates with state-of-the-art vertically integrated manufacturing facilities. The transformation from standalone garments industry to one of the leading vertically integrated facilities gave birth to some exciting backward linkage entity with the addition of high-class machine-oriented trims and accessories unit named.

Today T & A is self-sufficient with all the processes that are required to manufacture garments from its backward linkage process which includes the manufacturing of garment and accessories required to export the aforesaid garments.

T & A is now ready to provide one-point services to all of its present direct and indirect customer base which will also attract the potential customers who now consider T & A as one of their strong future supply chain hub.

With long-proven manufacturing excellence, T & A Associates has expanded its accessory hub in 2014, as a complete solution for trims & accessories. Many units,

Tanjida Associates is one of the sister concerns of T & A Associates.

Mission

We thrive for the optimum balancing between human spirit and technological excellencies in order to be recognized as one point solution provider for the associated industries.

T & A Associates aims to become best of the best in the accessories arena by ensuring manufacturing precision, quality delivery and a world class services to its direct and indirect customers and supply chain base and holds a strong commitment to its employment base community and to the society.

Vission
